SKU # 6500

Key Points of Compliance:

- ✓ A) Section 421.5.5 item 2: Treads are a maximum of 12 inches uniform in height.
- ✓ B) Section 421.10.1, item 1: Complies with minimum barrier height of 48 inches from ground level.
- ✓ C) Section 421.10.1, item 3: Smooth finish and design does not contain protrusions/indentations which can be climbed.
- ✓ D) Section 421.10.1 item 8: ladder is equipped with locking device/mechanism which is self closing and self latching located more than 54 inches from ground level. Access door opens outwards from the pool.

Note:

The mechanism of the Self-Latching System constitutes a locking device under the BOCA regulations. InnovaPlas strongly recommends the use of a padlock when in the pool is closed and not in use.
